

Canada COVID-19 epidemic models situation report No 01 on 20210731

Farshad Pourmalek MD PHD  

Situation report based on CovidVisualizedCountry tool for Canada

<https://github.com/pourmalek/CovidVisualizedCountry>

CovidVisualizedCountry: Repository created for visualization of COVID-19 epidemic models' estimates at country level – countries with subnational estimates, Canada

[Pourmalek - CovidVisualized- Visualized compilation of international updating models' estimates of COVID-19 pandemic at global and country levels - pre-print in progress - 2021](#)

Five international and periodically updating COVID-19 epidemic models:

DELP: DELPHI. Differential Equations Lead to Predictions of Hospitalizations and Infections. COVID-19 pandemic model named DELPHI by Massachusetts Institute of Technology, Cambridge. *Reference*: COVID Analytics. DELPHI epidemiological case predictions. Cambridge: Operations Research Center, Massachusetts Institute of Technology. <https://www.covidanalytics.io/projections> and <https://github.com/COVIDAnalytics/website/tree/master/data/predicted>

IHME: Institute for Health Metrics and Evaluation. COVID-19 pandemic model by Institute for Health Metrics and Evaluation, Seattle. *Reference*: Institute for Health Metrics and Evaluation (IHME). COVID-19 mortality, infection, testing, hospital resource use, and social distancing projections. Seattle: Institute for Health Metrics and Evaluation (IHME), University of Washington. <http://www.healthdata.org/covid/> and <http://www.healthdata.org/covid/data-downloads>

IMPE: Imperial. COVID-19 pandemic model by Imperial College, London. *Reference*: MRC Centre for Global Infectious Disease Analysis (MRC GIDA). Future scenarios of the healthcare burden of COVID-19 in low- or middle-income countries. London: MRC Centre for Global Infectious Disease Analysis, Imperial College London. <https://mrc-ide.github.io/global-lmic-reports/> and <https://github.com/mrc-ide/global-lmic-reports/tree/master/data>

LANL: Los Alamos National Laboratories. COVID-19 pandemic model by Los Alamos National Laboratories, Los Alamos. *Reference*: Los Alamos National Laboratory (LANL). COVID-19

cases and deaths forecasts. Los Alamos: Los Alamos National Laboratory (LANL). <https://covid-19.bsvgateway.org>

SRIV: Srivastava, Ajitesh. COVID-19 pandemic model by University of Southern California, Los Angeles. *Reference:* Srivastava, Ajitesh. University of Southern California (USC). COVID-19 forecast. Los Angeles: University of Southern California. <https://scc-usc.github.io/ReCOVER-COVID-19> and [https://github.com/scc-usc/ReCOVER-COVID-19/tree/master/results/historical forecasts](https://github.com/scc-usc/ReCOVER-COVID-19/tree/master/results/historical_forecasts)
